St. Charles Toyota St. Charles, Illinois

Completed 2008

New 50,000 SF addition / renovation of the new St. Charles Toyota. The new Toyota Prototype will feature a Thirty-foot-high by forty-foot-long portal entry feature as well as extensive use of ACM panels on the building façade. The fast tract project will be completed within an eight-month time frame. A three-acre parking lot expansion was completed at the end of May 2007 in order to move auto inventory and allow commencement of construction. .

"We would not hesitate to recommend Midway Enterprises, Inc for Hospitality

Miscellaneous Auto Deanships Completed in the local Chicago area

Poly-Clip Systems Mundelein, IL.

The 38,000 SF Office/Warehouse expansion consisted of structural steel (clear span) and commercial grade face brick. The interior slab was leveled to “zero” tolerance in the warehouse area for precision equipment. The fast track expansion was completed through winter in five months.

Prime Scaffold Bensenville, IL.

The 32,000 SF Office/Warehouse expansion consisted of structural steel and commercial grade face brick.
